

## **Advertisement for faculty positions in Earth Sciences at IISER-Kolkata**

The Department of Earth Sciences of Indian Institute of Science Education and Research (IISER) Kolkata is looking for highly motivated individuals for faculty positions with specializations in the following fields: **(i) Solid Earth Geophysics (ii) Geodynamics; (iii) Sequence Stratigraphy/Basin Analysis and (iv) Oceanography and Climate Modeling**. These required specializations complement the existing expertise of the department (Isotope and Trace Element Geochemistry, Organic Geochemistry, Petrology, Paleontology, Seismology, Structural Geology, Environmental Sciences, Geomorphology, Hydrology and Soil Mechanics).

The department is in the process of setting up several research laboratories. Successful candidates will be encouraged to develop their own research facilities, for which the institute will provide full logistic support and start up grant. Successful candidates will have to teach undergraduate and graduate level courses and supervise doctoral research.

A PhD in geosciences or a related discipline, and desirably post-doctoral experience is required at the time of appointment. Interested candidates may send their CV with a Statement of Purpose to the Director at [director@iiserkol.ac.in](mailto:director@iiserkol.ac.in).

Announcement of positions and application procedures can be found on the IISER-K website: [http://www.iiserkol.ac.in/faculty\\_positions.html](http://www.iiserkol.ac.in/faculty_positions.html).

Details about the Department, faculty members and existing facilities are available at: <http://earth.iiserkol.ac.in>.

For more information contact the chairman of the Department of Earth Sciences at [des.chair@iiserkol.ac.in](mailto:des.chair@iiserkol.ac.in).
